

## Feed the Monarch Fund

*In the Emerald Hills our Kings and Queens are never without food. They feast and revel to their heart's content.*

*But other Kingdoms aren't so lucky. To our south the monarch of the Wet Lands is starving as evidenced in this recent picture.*

*Famished he hides his shame behind the dried skin of his last meal.*

*So if you are planning an excursion to neighbors to the south. Bring an extra chicken leg or ham sammich. They obviously need it.*
