## **Get the Butt Out**

If you must smoke while at Amtgard, please throw you butts in the trash.

There have been too many Sundays where the floor of the pavilion was left littered with the nasty things. Please have some respect for our park and leave it cleaner than when we got there.

## *Champion's Corner*

King's Point has won every relic in the Kingdom! Ok we really only won one, the Ring of Power and now we have to share it. To be civil about deciding who gets to use it, we are going to kill each other, and this is how we are going to do it...

The park populace will divide into 4 teams like mini temporary fighting companies. Then once a month we will have castle siege battles. The team with the best time will win use of the relic for that month.

Myth will provide more details later.

## **New Death and Decay Diet**

Vargus, KP's leading diet expert, has verified that fat people lose more weight after they die than they have on any other diet attempted while alive. 100% of all dead people studied had lost a significant amount of weight. "After death every participant lost weight rapidly and kept it off even a year after the study ended. Most even continued to lose." More people should try it.

### Big Foot spotted in the KP Woods

A local resident has spotted what can only be described as Big Foot while hunting in the woods. Below is a grainy picture taken as he fled from the scene.

If you must go into the woods, please be safe. Don't go alone. This thing looks ferocious.
